

Glenn Bryant

MHS IN ONE HEALTH

Why did you choose the University of Florida?

My parents and grandparents have long loved the Gators. I got my undergrad here at UF's College of Natural Resources and Environment.

What philosophy guides you in your education?

I try to learn something new every day.

If you could solve one environmental and/or global health problem, what would it be?

Sustainability.

Educational Background

Bachelor of the Arts in Environmental Science from UF

Research Interests:

Market Forces in Environmental Policy Design

Career Goals

I'm a fourth generation native Floridian. Working in my home town I've risen through the ranks here at Citrus County for twenty plus years. I plan and hope to continue growing here. I don't know exactly what the future holds but whatever it is I want to be ready.
